

Rwanda value engagement with stakeholders and we need their expertise to enrich our discussion and understanding to elaborate an ambitious treaty.

- We have taken good note that the INC will not organize another Multi- Stakeholder Forum, but rather seek ways to improve stakeholder engagement, in particular during the inter-sessional period.
- We have heard from many stakeholder and delegations that it is key to get more targeted written inputs in due time before the INC-meetings to absorb this information.
- Also, we think it is useful to set up two working streams for INC-2 to progress our discussions.
  - o Group 1 could be focused on objective, core obligations, control measures and implementation measures.
  - o Group 2 could focus on means of implementation, including financial assistance and capacity building as well as institutional arrangement
