

**Ad Hoc Open-Ended Expert Group on Marine Litter and Microplastics, Bangkok, Nov. 18 – 22, 2019**

**Request for lists of participant** by Germany under Point 7, Any Other Matters

We highly appreciate the Secretary announced that it is willing to help Member States to communicate and to interact among each other to boost intersessional work.

We suggest to publish list of Participants including names, affiliations and mails of all participants in accordance with established practice of the UN system. They would be a great help, especially for small countries and small delegations.

It would be an easy and cheap way forward to foster communication between Member States and Major Stakeholders. It is common practice to publish lists of participants for other Conferences and almost all UN bodies, like the African Ministerial Conference on the Environment, or Expert groups.

This request is made within the spirit of transparency and in accordance with established practice in the UN system.
